DETAILED ACTION

1. Formal Matters

- A. Claims 1-20 were pending in the application. Claims 1-20 were cancelled and new claims 21-37 were added. Therefore, claims 21-37 are currently pending in the application and are subject to restriction.

2. Election/Restriction

- A. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 21-23 and 30-33, drawn to a composition comprising a recombinant hPTH with a K26Q mutation, classified in class 530, subclass 300.
 - II. Claims 24-29 and 34-37, drawn to a wild-type recombinant hPTH, classified in class 530, subclass 300.

- B. The inventions are distinct, each from each other because of the following reasons:

Inventions I and II are independent and distinct, each from each other, because they are products which possess characteristic differences in structure and function and each has an independent utility that is distinct for each invention which cannot be exchanged. The protein of Group II does not comprise the K26Q mutation of Group I and, therefore, cannot be used in the invention of Group I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter as defined by MPEP § 808.02, the Examiner has *prima facie* shown a serious burden of search (see MPEP § 803). Therefore, an initial requirement of restriction for examination purposes as indicated is proper.

Art Unit: 1647

C. A telephone call was made to Stephen Bent on March 21, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17 (h).
